Letters to Our Community

By the staff at Covered Treasures
Want to make 2017 the best year ever? Here are some great reads to get you started, from exploring our world to living well.

Dweck explains why it’s not just our abilities and talent that bring success—but whether we approach our goals with a fixed or growth mindset. She makes clear why praising our children’s intelligence and ability doesn’t foster self-esteem and lead to accomplishment but may actually jeopardize success. With the right mindset, we can motivate our kids and help them to improve in school, as well as reach our own goals, personal and professional.

By Thomas Friedman (Farrar, Straus & Giroux) $28
Friedman describes the tectonic movements that are reshaping the world today and explains how to get the most out of them and cushion their worst impacts. His thesis: to understand the 21st century you need to understand that the planet’s three largest forces—Moore’s law (technology), the Market (globalization), and Mother Nature (climate change and biodiversity loss)—are accelerating all at once. These accelerations are transforming five key realms: the workplace, politics, geopolitics, ethics, and community.

We at Covered Treasures wish each of you a healthy and interesting 2017. Until next month, happy reading.
