Castle explained that in- come from the American Med- ical Response (AMR) contract was excluded from her revenue projections depicting scenario 1 (no mill levy increase), which pro- jected total expenses of about $700,000. Pinnacle predicts $2.5 million and total income projected total expenses of about $2.5 million and total income of $700,000. Pinnacle predicts $2.5 million and total income of $700,000. Pinnacle predicts $2.5 million and total income of $700,000. Pinnacle predicts $2.5 million and total income of $700,000. Pinnacle predicts $2.5 million and total income of $700,000. Pinnacle predicts $2.5 million and total income $2.5 million and total income would run negative around 2024. (www.ocn.me/v10n7.htm#dwfpd, www.ocn.me/v10n8.htm#dwfpd, www.ocn.me/v10n9.htm#dwfpd)

In summary, Castle sup- ported the increase to 22 mills to provide services to constituents at their current level and to increase DWFPD’s ISO rating, which may lower homeowners’ insurance rates. Castle stated that initially a higher mill increase was con- sidered to create a more robust operational reserve; however, 22 mills is appropriate for the district.
